CLEANING AND RESTORING PLASTICS

THE #1 PLASTIC POLISH SYSTEM

SINCE 1973

NOVUS Plastic Polish is your one stop solution for restoring and revitalizing all plastic, acrylic and fiberglass products. For home or industrial use, NOVUS Plastic Polish has formulated a complete system to restore scratched, faded or discolored plastic materials.

The NOVUS 1, 2, and 3 polishes provide a complete system of scratch removal and surface restoration when used together. Novus No. 1 can be used individually to clean, shine and protect all types of plastic surfaces; while NOVUS No. 2 keeps plastics looking new by removing fine scratches and haziness. NOVUS No. 3 removes heavy scratches and abrasions and is formulated to prepare the surface for NOVUS No. 2 polishing.

For over 30 years, NOVUS Plastic Polish has been the recognized technology leader. Since 1973, NOVUS Plastic Polish has added new life to plastics, acrylics and fiberglass with easy to achieve professional results.

NOVUS Plastic Polish is helping millions win the war against fading, scratching and dulling of plastics that all too often cause the best products to grow old before their time.

Recommended by manufacturers of plastic products, NOVUS Plastic Polish can breathe life into and rejuvenate thousands of everyday products.

NOVUS Proven Customer Satisfaction...

Easy as 1, 2, 3!

NOVUS No. 1 gently cleans all plastics without scratching. Leaves a lustrous shine that resists fogging, repels dust and eliminates static.

- Resists fingerprints
- Contains no abrasives or harsh chemicals
- Leaves a smooth, clean, greaseless shine

NOVUS No. 2 removes fine scratches, haziness and abrasions from most plastics. With repeated use, NOVUS No. 2 restores faded and discolored plastics.

- Removes the damage without filling it in
- Buffs out quickly
- After restoring, seals with a coat of polish

NOVUS No. 3 removes heavy scratches and abrasions from most acrylic surfaces. Use when damage is too severe to be restored with NOVUS No. 2 polish.

- Requires use of NOVUS No. 2 for final finishing
- Not recommended for use on polycarbonate or coated plastics
